This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE LADIES' LIBRARY ASSOCIATION.

The Ladies' Library Association of Ann Arbor was established in the year 1866, by a few earnest women, to afford means of social and intellectual improvement.

It has been maintained by membership fees, by entertainments and by donations. The Association has reaped the benefit of the generosity of the citizens on two occasions. The surplus remaining from the Forest Fire Fund in 1872, amounting to $505.00, and that remaining from the entertainment of the American Association for the advancement of science in 1885, amounting to $291.96, were generously donated to the library.

The Hon. E. C. Seaman left by will to the library $500.00, for the purchase of books. The Association is also indebted to many friends for donations varying from $1.00 to $100.00.

The library lived an itinerant life till the year 1886, when it settled down in its own handsome building. On the twentieth anniversary of the organization a public reception was given by members of the original board, assisted by others, at which time a large number of valuable books were presented by the guests. These books will be found starred in the catalogue.

The library at present contains 3000 volumes. The last catalogue appeared in 1882. Since then the library has been greatly enlarged, and it has been thought best to prepare another catalogue that shall be brought down to the present time. The result is now placed in the hands of the members.

The present catalogue is chiefly an alphabetical list under authors' names. In the case of biography, or of books occurring in series, there is usually a double reference. For the

convenience of the librarian, the original arrangement of the books on the shelves has not been changed. The letters indicate the section of the cases, and the figures the number of the book.

In the preparation of a catalogue errors of various kinds seem inevitable, and readers who take special interest in the perfecting of such work are requested to note such mistakes as may be discovered and report them to the librarian with a view to future correction.

The directors take this opportunity to thank their many friends for their valuable donations. The funds at their disposal for the purchase of books being limited, and there being still a debt upon the building they respectfully invite a continuance of such donations.
